Winter Project List

We are off to a quick start on our winter project list here at Bear Creek. We completed aerifying all the greens over a month ago. We used an aggressive 8 inch solid tine to poke all the greens and fill them 100% with clean fine sand. This will give the roots a quick opening to start the roots growing downward during the winter months. We are hoping for 8 to 10 inches of root structure before we start next season.

This week we are replacing a broken 20 foot irrigation pipe that crosses the creek on hole #11. We have rented a large back hoe to dig down 20 feet to replace the pipe with a stronger ductal iron pipe. This will allow us to increase the water flow and pressure on holes #11, #12, #13 and provide water redundancy in case of a fewer repair needed.

Outside Lighting has just been installed by Justintime Lawn Care around the entire clubhouse. This will enhance the clubhouse appeal and provide a safer environment for those attending functions at Bear Creek during the evening hours.

We have removed the cedar bushes outside the pro shop and are in the process of planting Box Wood Shrubs in their place. This will be done just in time to put our Christmas lights on them.

Keep your eyes open during your next visit to see what we're working on next.

Fall/Winter Menu

It has been a great year, but we are not done cooking yet! The daily menu is back open for the fall and winter months we have added fresh hot soup made in house to knock off the chill after the round or to give you some warm energy before teeing off. Ask for a sample! Our new hours will be from 11-5 every day of the week.

We still have a few events left on the season including our pass holder appreciation dinner, new year's eve party, and our monthly golf outings hosted by Bear Creek, all fixed with menus to please. We look forward to seeing great turnouts! Thank you for your patronage!
