Happy Easter!

"New" Friday Night Couples Golf

By request we have started a 2nd program for couple's golf. This is to appeal to those who can't make our Sunday afternoon couples league or for those wanting to play more golf and play in both. The Friday night couples plays once a month on Fridays with a four person scramble (2 couples) or a 4 person individual draw. The schedule is posted online at bearcreekgolf.com so please call the Pro Shop to sign up by Thursday of that week. Our first event is Friday, April 21st with a shotgun start at 5:30pm so we hope to see everyone then. The restaurant will also be open for couples wanting to purchase food and drink specials before and after golf. Prizes will be awarded after golf to the winners.

Greeting from the Maintenance Department!

As I write this we are busy trying to tame our actively growing rough. Spring has definitely sprung. After a dull winter its nice to see everything coming back to life. With the return of active growth comes us maintaining it. As such, you will from time to time see areas we have roped off. We ask when you see these areas that you avoid them so we can get the turf health and strong. Also, as the rains increase please be mindful of the damage you do as you drive around a puddle in the cart path. Lastly and definitely not least, please repair your ball marks. Its not fun to have a 10 footer veer off line because of a bump left by another. Have a great spring and we look forward to seeing you on the course.

Wedding Trends 2017

Planning a 2017 Wedding? Here's what's going to be trendy with weddings in the coming year.

1. Translucent Cakes/Naked Cakes: (a wedding cake with unfrosted sides) this is the latest trend in the wedding dessert arena is cakes that are just *barely* frosted.
2. Live Entertainment: think acrobats, aerialists, and even live choirs belting out Beyonce- anything to entertain your guests.
3. Portrait Studios and Illustrators: Photo booths with funny props are becoming repetitive. Replacing them are more formal portrait studios and even on-site illustrators who capture the night through live sketches that you and your guests can take home.
4. Furry Friends: We have seen adorable puppies, but in 2017 we are seeing bunnies and donkeys to llamas and pigs, couples having rustic barn weddings are incorporating farm animals into the wedding day
5. Metallic Dresses and Breezy Silhouettes: Gold threading, silver beading, and breezy silhouettes will be all over the aisles in the coming year.
6. Reducing your carbon footprint: A fantastic celebration that's also socially and environmentally conscious is an obvious win-win.
7. Image Mapping: The most futuristic wedding trend for 2017 is image mapping, a new projection technology that allows you to transform a space (or your cake!) with lighting and moving pictures.
